

THE TOBACCO DEALER GETS INFORMATION FROM THE GOOD JUDGE.

THE average tobacco chewer's complaint is not lack of purity but too much sweetening that makes him spit too much. Buy a 10c. pouch of W-B CUT Chewing and give it the quality test. Here's tobacco with a difference. Take only a small chew—it's rich tobacco. Notice how the salt brings out the flavor without grinding and so much spitting. Dealers who believe you want quality carry W-B CUT—10c a pouch. Made by WEYMAN-BRUTON COMPANY, 50 Union Square, New York City

Stomach Troubles and Constipation.
"I will cheerfully say that Chamberlain's Tablets are the most satisfactory remedy for stomach troubles and constipation that I have sold in thirty-four years' drug store service."

Read the **DIAMOND DRILL**.

No stranger tale of escape from captivity has perhaps ever been told in the annals of any war than that narrated by Major de V., a French aviator, who was recently captured behind German lines when a dense fog caused him to lose his bearings. Captured by the enemy, this dispirited Frenchman was tied to his seat in his own aeroplane and ordered by a German aviator officer, who climbed in behind him, to fly low over the French lines and not to descend or to signal to his fellows under penalty of instant death from a bullet from the German's revolver.

By the simple process of looping the loop Major de V. rid himself of his unwelcome passenger captive, who had not taken the precaution to secure himself to his seat. This maneuver, accomplished after a sudden swift flight to a higher altitude, was executed so unexpectedly that the German officer failed to guess his enemy's purpose and plunged from the machine to his death.

SEEK RICHES IN OCEAN.

Millionaires May Try to Raise Lusitania and Other Vessels.

Most plausible adventurers have gone within years even recent into the doubtful atmosphere of Wall street to spin their tales of pirate gold waiting on the bottom of the sea in rotting hulks for the men of initiative and some cash. The tales and schemes of such have gone stale, but the young blood of Wall street has its longing for fair profit to be gained from honest risk and skillful planning.

That is why a new submarine engineering company is now a corporation fully capitalized to hunt the sea for abandoned treasure.

No more adventures won the ear of Percy Rockefeller, George F. Baker, Jr., Charles H. Sabin, Albert H. Wiggin and G. M. P. Murphy, who are among the investors in the treasure hunting concern.

Rear Admiral Colby Mitchell Chester, U. S. N., retired; W. D. Franklin, formerly a lieutenant in the United States navy, and George David Sillson, the engineer who raised the United States submarine F-4 off Honolulu, are the men who convinced Mr. Rockefeller, Mr. Baker, Mr. Sabin and the others of the excellent opportunities in attempting to salvage vessels that plunged to the bottom in stress of storm.

There is even talk that an effort will be made to salvage the Lusitania, or at least her cargo, including \$2,000,000 in gold bullion and a vast fortune in jewels. She lies in 400 feet of water, and her position is well known.

CARDS CHECK INTERVIEWS.

Soldiers on Leave Anticipate Queries With Printed Form.

German officers and soldiers home on leave or because of wounds are adopting the card system of heading off would be interviewers and inquisitive friends who want to know all about the war, according to a report from a small town in northern Germany printed in a recent issue of the Frankfurter Zeitung. The correspondent tells how he met a friend who was an army officer and how, after greetings had been exchanged, the officer remarked, "Read this before you ask any questions," and handed him a card reading as follows:

"I am wearing the uniform of the 5th cavalry regiment.
"I have come unwounded from the front at N.
"I am on leave until —.
"I do not believe there will be a further great advance in the east.
"I cannot tell, and even Hindenburg knows no more on this point than I do, when peace will be proclaimed."

TAMING THE UNTAMED GIANT OF THE AGES

Electricity Defied by Ajax Now Harnessed to Operate Milwaukee Trains Over the Rockies.

The myth of Ajax's defiance of Jove's lightning was the expression for three thousand years of the world's opinion of electricity.

Then suddenly, in a few decades, the terror of the ages was seen to be the most beneficent and most powerful servant of man.

Its transcendent value to the race is nowhere better exemplified than in the electrification of the "Milwaukee Road" for 440 miles from Harlowton, Montana, to Avery, Idaho. From the plunging mountain waterfalls, it is taken and sent along the wires to the mighty electric locomotives that haul the all-steel trains of "The Olympian" and "The Columbian" and the long heavily loaded freight trains over the mile-high ramparts of the Great Continental Divide. Whether to carry tonnage or to yield the traveler the comforts of smooth, clean travel, its enormous power, in winter and in summer, is wholly, at man's service.

To the supreme travel qualities of cent scenery—accessibility to several the "Milwaukee"—a splendid road bed—luxurious equipment—magnificence of the National Parks and the employees—is now added the delights of electric travel through the very heart of the mountains.

Take the "Milwaukee" on your next trip to the Pacific North Coast.
